Economic Modelling

Articles – titles

A forward looking model of housing construction in the UK. *Christopher Tsoukis and Peter Westaway.* 11.2, 266–279

A general model of policies toward international flows of capital and labour. *Fathali Firoozi.* 11.3, 330–339

A macroeconometric model for Israel 1962–90. A market equilibrium approach to aggregate demand and supply. *Michael Beenstock, Yaakov Lavi and Akiva Offenbacher.* 11.4, 413–462

A model for the EMS exchange rate mechanism. *Peter Bekx.* 11.1, 105–114

A model of the New Zealand economy. Reserve Bank Model XII. *Ray Brooks and Darren Gibbs.* 11.1, 5–86

An algorithm for the solution of non-linear forward rational expectations models with current partial information. *K G P Matthews, A P L Minford and S C Blackman.* 11.3, 351–358

An empirical model of mortgage arrears and repossessions. *Martin Brookes, Mike Dicks and Mahmood Pradhan.* 11.2, 134–144

Anglo-German differences in housing market fluctuations. The role of institutions and macroeconomic policy. *J Muellbauer.* 11.2, 238–249

Competition restrictions in housing production. A model for analysis. *Christer Bengs and Kimmo Rönkä.* 11.2, 125–133

Dynamic macro modelling and materials balance. Economic-environmental integration for sustainable development. *Jeroen C J M van den Bergh and Peter Nijkamp.* 11.3, 283–307

Editorial. *Sean Holly.* 11.1, 3

Editors' introduction. *Sean Holly and Alistair Milne.* 11.2, 123

House prices, land prices, the housing market and house purchase debt in the UK and other countries. *A E Holmans.* 11.2, 157–199

Housing finance arrangements, intergenerational transfers and consumption. The Italian experience. *Luigi Guiso, Tullio Jappelli and Daniele Terlizzese.* 11.2, 145–155

Housing systems, regions and the national economy. *Duncan Maclennan, Kenneth Gibb and Alison More.* 11.2, 228–237

Market structure, institutional development and the provision of housing finance. A comparative study. *John Lomax.* 11.2, 215–227

Modelling the Finnish housing market. *Sinikka Salo.* 11.2, 250–265

Oil investment in the North Sea. *Carlo A Favero and M Hashem Pesaran.* 11.3, 308–329

Residential investments and house prices in Denmark. *Dan Knudsen.* 11.2, 201–214

Risk sensitive stabilization policies in commodity markets. A simulation study. *Jati K Sengupta and Nurhan Davutyan.* 11.3, 375–384

Robust rules for G3 macroeconomic policy coordination. *Nicos Christodoulakis, David Kemball-Cook and Paul Levine.* 11.1, 87–104

Specialization gains from trade in intermediates. A VIS modelling approach for the UK. *Scott McDonald and Chris Milner.* 11.3, 359–374

The Bank of Italy monthly money market model. Structure and applications. *Ignazio Angeloni.* 11.4, 387–412

The density functions of R^2 and $\overline{R}^2$ and their risk performance under asymmetric loss in misspecified linear regression models. *Kazuhiro Ohtani.* 11.4, 463–471

Twin debt reduction, government policies and interdependence. *Rob de Groof and Martin van Tuijl.* 11.3, 340–350

Articles – authors

Angeloni, Ignazio. The Bank of Italy monthly money market model. Structure and applications, 11.4, 387–412

Beenstock, Michael, Lavi, Yaakov and Offenbacher, Akiva. A macroeconomic model for Israel 1962–90. A market equilibrium approach to aggregate demand and supply. 11.4, 413–462

Bekx, Peter. A model for the EMS exchange rate mechanism. 11.1, 105–114

Bengs, Christopher and Rönkä, Kimmo. Competition restrictions in housing production. A model for analysis. 11.2, 125–133

Blackman, S C see Matthews K G P

Brookes, Martin, Dicks, Mike and Pradhan, Mahmood. An empirical model of mortgage arrears and repossessions. 11.2, 134–144

Brooks, Ray and Gibbs, Darren. A model of the New Zealand economy. Reserve Bank Model XII. 11.1, 5–86

Christodoulakis, Nicos, Kemball-Cook, David and Levine, Paul. Robust rules for G3 macroeconomic policy coordination. 11.1, 87–104

de Groof, Rob and van Tuijl, Martin. Twin debt reduction, government policies and interdependence. 11.3, 340–350

Dicks, Mike see Brookes, Martin

Favero, Carlo and Pesaran, M Hashem. Oil investment in the North Sea. 11.3, 308–329

Firoozi, Fathali. A general model of policies toward international flows of capital and labour. 11.3, 330–339

Gibb, Kenneth see Maclennan, Duncan

Guiso, Luigi, Jappelli, Tullio and Terlizzese, Daniele. Housing finance arrangements, intergenerational transfers and consumption. The Italian experience. 11.2, 145–155

Holly, Sean. Editorial. 11.1, 3

Holly, Sean and Milne, Alistair. Editors' introduction. 11.2, 123

Holmans, A E. House prices, land prices, the housing market and house purchase debt in the UK and other countries. 11.2, 157–199

Kemball-Cook, David see Christodoulakis, Nicos

Knudsen, Dan. Residential investments and house prices in Denmark. 11.2, 201–214

Lavi, Yaakov see Beenstock, Michael
